Re: AMG & Assoc., Inc. Performance on Mar Vista Family Center

To whom it may concern:

I was the Construction Manager for the Mar Vista Family Center on their new facility construction project. AMG & Assoc., Inc. was the low bidder in a public bid format. The contract amount was \$4,140,000. The project included connecting the new two story facility to an existing building and tying their systems together.

We were able to negotiate all changes to the satisfaction of all parties. AMG were cooperative and proactive. Their diligence and follow thru contributed greatly to the feeling of teamwork and cooperation that made the project both a pleasure and a success. They backed up their change orders well and studied costs and time impacts before submitting claims. They were creative about solving problems and brought cost and time savings ideas to the table.

I would not hesitate to use AMG & Assoc., Inc. on a similar project in the future.

Sincerely,
Dreyfuss Construction
